

- attractive, see-through mesh child safety fence
- looks good and doesn't block your view
- tough, long-lasting textile mesh, does not fade and is resistant to UV
- can be removed by an adult and rolled up if required
- contours any shape of pool

Amana-Fence®

For complete peace of mind

Safety Points

Our fence conforms to international child safety standards ASTM F2286-16(2023) :

- 1.2m (4 feet) high
- our safety gate is self-closing, self-locking and can also be locked with a key
- we use Tru-Close hinges and Magnalatch safety latch system, (alarmed version also available), the original and best in the world, from Australia
- the safety gate latch can only be opened by an adult pulling upwards, and the opener is positioned 1.5 meters above ground level
- the fence cannot be climbed
- the fence is fitted flush to the ground, no gap
- all gaps between panels are 10cm or less
- will be installed within a no-climb zone to avoid nearby climbing risks such as steps
- the fence will be installed by our trained and experienced team
- **Dubai Municipality guidelines:**

Questions?

- **How is the fence installed?**

Our team is trained and experienced, and we have been installing pool safety fences since 2014.

We drill into solid ground and insert a sleeve to hold the poles securely. There is a small twist-in cap to cover the top of the sleeve if you wish to remove the fence.

- **How long will it take to install?**

We usually keep all products in stock. This means we can install on the next available day in our schedule.

The installation is completed in one day.

- **How much is it?**

The price is based on AED 294 (280 plus VAT) per linear metre fence, and AED 2,100 (2,000 plus VAT) for the self-closing self-locking safety gate. This includes installation and a 5-year materials warranty. We expect our fence to last a very long time and some of our fences have been sold on after years of use. We have even re-installed some of our fences for their third owners.

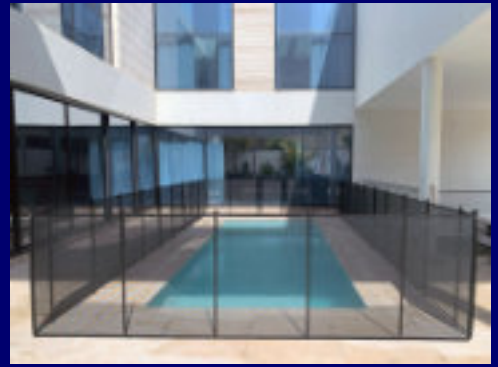

- **How can I get a quote?**

Call or WhatsApp us - the Pool Enquiry number is **050 725 1801**

If necessary we can visit your pool, measure, check the terrain and give you an exact quote.

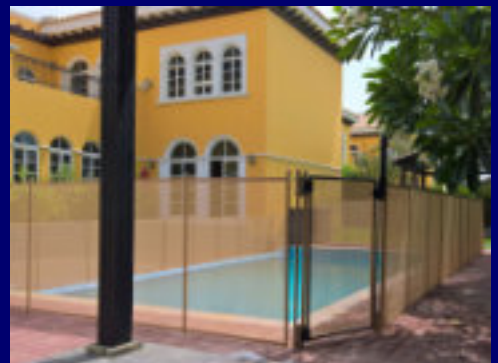

- **What colours are available?**

Black The mesh is black, making it colour neutral. The mesh has no colour cast and is clear, see-through, and like glass from a distance. The gate, trim, poles, latch and hinges are black.

-  **White** The mesh is the same colour neutral black mesh as the black fence, and also looks like glass from a distance. The trim and poles are white and the white gate has a black rubber trim, latch and hinges.

- **Beige** The mesh is beige, and therefore has a slight beige colour cast, but is still see-through. Matches well with yellow, beige coloured villas or walls. The trim and poles are beige and the beige gate has a black rubber trim, latch and hinges.
